Cooking in the Great Outdoors!

From tiny houses to mini cars, small is the new big thing. In this age of downsizing, kitchen tools with minimum bulk and maximum functionality are essential to reducing cupboard clutter. And with summer around the corner, these portable tools are perfect for outdoor activities, whether you're grilling hot dogs over the campfire or enjoying an impromptu picnic at the park. To be sure you remember all your essential gadgets, wrap them in a kitchen towel, and set them alongside your cooler or bag the night before. A little prep work beforehand will help bring the fun in the summertime sun.

Microplane® Cube Graters are small but mighty

Versatile, diminutive, and portable, the Microplane® Cube Grater makes an ideal match for outdoor activities and small spaces. This multi-functional tool replicates the functionality of a traditional box grater, without taking up all the space. Measuring a mere 3.25 x 3.25-inches in diameter, the Cube Grater features three of the most popular Microplane blades – Fine, Ribbon and Coarse – to tackle a diverse range of food prep tasks. And best of all, it's fun to use. Use it to grate cheese, garlic, onions, carrots, zucchini, apples, even chocolate. The Cube Grater also comes with a durable transparent cover that doubles as a storage container, neatly corralling up to 1 1/2 cups of food. Dishwasher safe, the Cube Grater comes in three colors: Black, Red and Green. Available nationwide for \$19.95 suggested retail.

Unique Attributes and Characteristics
