

**Microplane**  
THE ORIGINAL®

# Food Slicer

The food slicer by Microplane is one tool that easily replaces many kitchen gadgets, like an egg slicer, a strawberry slicer, a mushroom slicer and so on. With serrated blades, it is built to last and is sharp enough to cut through tomatoes. The slices are about 1/4" and the container size makes it the right size for individual servings, snacks, and making salads - plus it doesn't take up much space.

## Features:

- Serrated blades make .25" thick slices of these foods:  
Strawberries, Grapes, Shallots, Grape Tomatoes, Eggs,  
and Mushrooms
- Eliminates the need for a cutting board and other gadgets
- Non-slip base and soft touch grip for improved performance
- 1 cup/ .237 liters clear bottom container
- Use scraper to clean blades and grid
- Top rack dishwasher safe; place scraper in small tools basket
