

A black Microplane Garlic Mincer is shown in the center of the image, with its lid open. It is surrounded by kitchen items: a glass bottle of herb-infused oil to the left, a wire basket of lemons to the right, and a glass citrus squeezer. A small circular inset labeled 'RESULTS' shows a close-up of the finely minced garlic. The background is a light-colored marble countertop.

Microplane
THE ORIGINAL®

Garlic Mincer

The Garlic Mincer from Microplane transforms peeled garlic into uniformly cut, delicate strands within seconds - all with minimal hand contact, effort or mess. Unlike a garlic press, the Garlic Mincer produces finely textured garlic pieces that retain their natural oils for optimum flavor.

Features:

- Minces 2-3 peeled cloves at once with visible results
- Uniformly cuts garlic for enhanced flavor with simple back and forth motion
- On board scraper removes garlic from container and blade
- Blade made in USA
- Top rack dishwasher safe
