

2-in-1 Core & Peel

Designed to quickly and effortlessly prep apples with one easy-to-use tool, the 2-in-1 Core & Peel features a unique saw-tooth coring blade flanked by two sharpened edges to smoothly separate and extract the fruit's core with complete ease. The highly efficient coring blade and shaft is made of sturdy stainless steel for maximum power and durability. To peel apples, pears and other produce, such as carrots and potatoes, the 2-in-1 Core & Peel includes a sharp, straight edge stainless peeler blade located on the bottom of the handle. The tool's seriously sharp and efficient core and peel blades are attached to an ergonomically designed soft-grip handle that's styled in striking red with white accents. Saving on time and effort coring and peeling apples and pears for snacking, and for a wide range of sweet and savory dishes - such as fruit pies, crumbles, crisps, candied apple rings, salads, stews, braises - the dishwasher safe Microplane® 2-in-1 Core & Peel includes a reusable protective cover for the coring blade, and a protective cap for the peeler blade.

Features:

- Core and peel apples with one tool
- Unique saw tooth blade cuts into apple easily
- Edges of corer are sharp to improve coring
- Straight edge peeler under protective cover
- Protective storage cover included for coring blade
- Dishwasher safe/Hand wash covers
