Microplane
THE ORIGINAL®

Master Series

Microplane® launches Master Series, a new collection of elegantly designed hand-held graters crafted in walnut and stainless steel. Reflecting Microplane's iconic wood shop heritage and today's popular craftsman styling, Master Series offers the best in contemporary styling, durability, and flawless performance. Master Series graters are expertly engineered with Microplane's original stainless steel, made in the USA blades, and securely framed in heavy duty stainless steel. The exceptionally beautiful, oiled walnut handles (wood sourced from the U.S.) are comfortable to hold, and add a distinctively warm and chic design to kitchen decors. Delivering superior results every time and years of enjoyment, Master Series is the perfect choice for the craftsman in the kitchen. New Master Series is available in four paddle-shaped styles with the following popular Microplane blades - Fine, Ribbon, Coarse and Extra Coarse - and a rasp-style Master Zester with a Fine blade.

Available October 2016
